MEDIA RELEASE

EBG Capital successfully led Swiss investor group to purchase Australian dairy property

EBG Capital led a group of investors purchasing Dalmore Dairy Farm in Tasmania, Australia. Dalmore is a 293 ha dairy farm with a 50 unit rotary, sheds and storage facilities. The farm can milk 850 cows. A significant portion of the land is under pivot irrigation making sure the farm produces well even in dry summers. Dalmore farm has a strong track record and produces high-quality milk supplied to Tasmanian dairy processors.

The investor's consortium involves Swiss and local Australian investors and a local partner in Australia that will be responsible for the management of the farm. Together with the other dairy investment club deals we advised on the farms are now producing 2.5% of Tasmania's milk.

The farm is located in Dairy Plains, approximately 60km from Launceston, the second largest city in Tasmania.

EBG Capital AG

EBG Capital AG is an agricultural investment advisory boutique with global reach and proven track record. We are providing specialist advice and access to attractive investment opportunities.
