## MEDIA RELEASE

### **Agricultural investment advisory boutique EBG Capital celebrates 10-year anniversary**

Over the last decade, EBG Capital has successfully guided family offices, wealth managers and institutional investors in building, managing and growing their investments in agriculture.

Founded as a spin off from Credit Suisse, the firm has developed into an advisory boutique providing consulting services around a broad range of agricultural investment themes. Since the foundation of EBG Capital, the sustainability principle has been embedded in its core DNA, and as a result, the founder was closely involved in such key initiatives as the launch of the farmland investment principles by a group of large pension funds (now part of PRI), and the development of the FAO/OECD Guide on responsible investments in the Agricultural value chain. Since 2014, he also acts as a Vice Chair of the OECD working group on responsible investments in the agricultural value chain.

EBG Capital's success story is substantiated, among others, by the following accomplishments:

- Launched a club deal platform for direct investments in dairy farms in Tasmania/Australia
- Conducted 25+ Investment due diligence on agricultural investments globally
- Lead restructuring process of a large Brazil farmland investment
- USD 100m Swiss Pension Fund has awarded an agriculture and timberland mandate to Stafford Capital Partners. Stafford's agricultural strategy was launched in collaboration with EBG Capital.
- Advised on numerous transactions with Swiss family offices

Bernd Schanzenbächer, Founder and Managing Partner of EBG Capital says: «Agriculture is a very attractive investment case, given that it has a compelling risk/return profile, inflation hedge, diversification benefits, and its low correlation with other asset classes.»

The agricultural sector faces great challenges in feeding the world in the future. EBG Capital is perfectly positioned to provide compelling investment opportunities to its clients; not only in farmland, but also along the whole agricultural value chain.

We, in collaboration with credible local partners, uniquely blend traditional alternative investment capabilities with in-depth, multi-disciplinary and global agricultural expertise needed to understand value drivers and risks - the key to successful investing in primary agriculture globally.

## EBG Capital AG

EBG Capital AG is an agricultural investment advisory boutique with global reach and proven track record. We are providing specialist advice and access to attractive investment opportunities. Our clients include single family offices, wealth managers, institutional investors and international organizations.
